Office Now Open

With V. D. L. Robinson, the executive secretary, in charge of the office and directing the work of organization, permanent headquarters of the Virginia Good Roads Association have just been established in Murphy's Hotel. The association has before it one outstanding object — to see Virginia have "an adequate system of roads properly maintained."

President C. O. Vaughan, Jr., and Secretary D. B. Ryland, of the association, have just left Richmond after meeting Mr. Robinson and completing arrangements for the opening of the office. Mr. Robinson, for five years secretary of the Dixie Highway Association, reported for duty on August 1. He is considered an expert in highway and transportation matters and is a member of several important Federal highway committees.

Happy thought, the sick are getting better, big meetings have begun and we have had some water melons.

A few petty officers are fining people, who through ignorance failed to pay the dog tax before July 1st. A saw a card a poor widow wrote an officer saying she enclosed $10 to pay her fine—bad thought.

Pleasant thought lingers in the minds of those who attended the nice concert at Arvonia Friday night.

Business thought—veal gone back to 16c.

Edgar Jones, the veteran fox hunter ran a fox into my big tobacco with 17 dogs in full chase, and you know I was glad when it ran into my yard and my shepherd dog caught it. The dogs broke some tobacco but the chickens may fare some better with Raynard out of the way.

I witnessed such a shameful occurrence the other day that I can hardly keep from writing about it.

Mr. John W. Haskins has gone to Red Star, W. Va. to try his fortune.

Miss Venable, of Richmod, who is a trained nurse, came up to nurse Miss Mary Moss, and I am delighted to report that the crisis is past. She has typhoid in mild form. Miss Lucy Moss and Mrs. Ragland are also with the patient.

Special services begin at Emanuel church, Glenmore, the 11th.

You are again reminded that the great tabernacle meeting begins on the 13th.

Mr. B. A. Seay has opened up his new flouring mill at Dillwyn.

Mr. Willie Stinson has opened up his mill for the sason, and at Slate River Mills they advertise to do more than usual for their customers.

The creek at the foot of Dixie hill got too deep for autos to cross Friday night, and some travelers after getting wet had to around by Enonville to get to the village.

We are having delightful cider now and some people are drinking new blackberry wine.

No cattle buyers have been around yet in these parts.

Medium size boys are asking $1 day and board for farm work and it is seldom one can employ even a boy who will really work.

Henry Whorley has found a purchaser for his mill. I did not learn the stranger's name

Miss Mary Haskins has accepted a position to teach in James river district.

Miss Roy Rogers expects to teach in N. C.

Teachers are short in this county.

On Appomattox Circuit.

A good revival came to a close at Mount Comfort church Sunday night, and Rev. E. V. Carson who assisted the pastor has returned to his home in Richmond. Mr. Carson was reared in Appomattox and this is the third successful revival he has conducted at this church His visits and good sermons are always enjoyed and appreciated.

Revival services will begin at Bethel Methodist church Sunday night. The pastor will be assisted by Rev. W. L. Ware of Crewe.

Rev. Clark Caldwell will preach at Hermon church Sunday at 11 a. m. for the pastor.

The patrons of the Hollywood school are arranging to have a splendid graded school at that place. This speaks well for the civic pride of the people. There are many private subscribers to the building fund.

Gold Bricks.

A gold brick, of the kind sold by clever swindlers to "easy marks," is a product of highly skilled workmanship. It is made of copper, alloyed with a little zinc, and is painted with real gold to which some mercury has been added. This gives a very smooth and satisfactory effect; and the mercury being evaporated by heat, a final varnish of "gilding wax" lends an attractive luster.

OBEDIENCE TO NATURAL LAW

Fear Implanted in Mankind for the Purpose of Promoting Caution—Differs in the Sexes.

"In normal, well-balanced persons there is a certain relation between the element of fear and the element of courage. Fear is an emotion existing for the purpose of promoting caution, and in primitive days and in animals tends to self-preservation. Anger, curiosity and courage are factors which oppose fear and flight. When knowledge, experience, repetition, finally limit or delimit the action of these two opposing instincts and emotions, conscious action is carried out with understanding according to the inherent reactions.

"Woman was made with the element of fear and caution more pronounced than in man, because woman, the mother, was not supposed to be the fighter. Man, primitive man, the fighter, was more endowed with courage."

These quotations from a report by Dr. Samuel Wyllis Bandler of New York to the Journal of the American Medical association preface a discussion of the differences in the ductless, or endocrine, glands in man and woman. In normal persons these balance each other, but the balance is different in the two sexes and, according to Doctor Bandler, it is this difference in balance that causes the differences in the instincts and emotions.

SHREWDNESS BORN IN HIM

Successful Man's Ability as Trader Was Shown at an Extremely Early Age.

From day to day proof is forthcoming that genius is spontaneous and not a slow growth—that it is of the type of Minerva who sprang full-armed from the head of Zeus. This is evidently as true of the genius of the mart as it is properly supposed to be of the more esthetic forms of genius.

An instance in substantiation of this opinion was recently related by a veteran business man as a side light on the why of the success of a well-known industrial leader.

"I remember him," it was related, "when he was a lad of six years. He wanted to trade a lantern for one owned by a playmate, which he admired. Coming to his father, he asked counsel about the matter and was informed that he should use his own judgment.

"'Well, dad,' said the boy, 'I believe I'll trade; but wouldn't you take the oil out first?'"—Wall Street Journal.

Was Very Weak

"After the birth of my baby I had a back-set," writes Mrs. Mattie Crosswhite, of Glade Spring, Va. "I was very ill; thought I was going to die. I was so weak I couldn't raise my head to get a drink of water. I took . . . medicine, yet I didn't get any better. I was constipated and very weak, getting worse and worse. I sent for Cardui."

TAKE

CARDUI

The Woman's Tonic

"I found after one bottle of Cardui I was improving," adds Mrs. Crosswhite. "Six bottles of Cardui and . . . I was cured, yes, I can say they were a God-send to me. I believe I would have died, had it not been for Cardui." Cardui has been found beneficial in many thousands of other cases of womanly troubles. If you feel the need of a good, strengthening tonic, why not try Cardui? It may be just what you need.

Bonaparte's Short Career.

In 1802, on August 2, Napoleon Bonaparte was declared consul of France for life. Thirteen years to the day, the convention between the representatives of Great Britain, Prussia, Austria and Russia declared Bonaparte, then emperor of the French, to be a prisoner of the allies and intrusted Great Britain with his custody.

Zoologist's Paradise.

Messina, Sicily, is known as the paradise of zoologists. Unusual facilities are offered there for the study of the deep sea fauna.

Bug Holdup.

A bug may hold up a locomotive. It takes a large number to do the trick, but it has been done. Specialists in the train holdup line in bugdom are the army worm, the tent caterpillar, the cotton worm and migratory locusts. Huge water beetles traveling in force have been known to accomplish the same feat. When these insects swarm upon the track they so effectually grease the rails that no wheel can be kept turning.—Boston Post.

Uncle Eben.

"Some men," said Uncle Eben, "git deirse'fs all tired out dodgin' work."

Birds and Shellfish.

The English thrush brings its snails to a certain convenient stone on which it will crack their shells by beating them upon it. Some sea birds carry shellfish to a height and drop them on the rock to break their shells, but this brings only the anvil into use, not the hammer. The case of the wasp is the only one which records the seemingly intelligent use of a tool to accomplish a given purpose.

Opportunity.

Opportunity is a fine thing. So fine, in fact, that some of us miss it.

In Buying Vehicles there are Some things you should consider

No one can tell what kind of material is in a buggy after it is painted. You will have to depend largely on the reputation of the house you deal with. What a guarantee is worth depends on who the guarantor is. Deal with the man you have confidence in and with whom you can talk FACE to FACE

We now have the best stock on hand we have ever carried. Others are buying, why not you? A good buggy is an asset, not a liability, on every farm. Do not be a spendthrift, but be a THRIFTY SPENDER. Wise buying will save the individual, as well as the nation, from going against the rocks

Tire Treads
Improved 25%

The latest Miller triumph is a super-grade tread. It excels the best rival treads today by an average of 25 per cent. This has been proved, under careful watch, by many road comparisons.

The Miller Tire mileage is the talk of the day. But these new-grade treads outwear the balance of the tire.

Not one Miller Tire, built with this new tread, has ever come back with the tread gone.

These treads do not vary. Every day the Miller tread stock is vulcanized and tested in the laboratory. It must prove up to these new standards before a tread is made.

Miller Cord Tires, in the factory tests, now average 15,000 miles. Miller Fabrics from 8,000 to 9,000 miles. And these factory tests are extreme.

Watch your mileage on one Miller Tire. Compare it with any other and it will win you. You owe that to yourself in view of Miller records.

Tread Patented

Center tread smooth, with suction cups to firmly grasp wet asphalt. Geared-to-the-Road side treads mesh like cogs in dirt.

Earned Capital
... IS BEST ...

In investigating the financial standing of a man just entering business the mercantile agencies always try to find out whether he has earned and saved his own capital, or whether it was inherited

Dun and Bradstreet know that a man who has taken years to save his own capital has, during that time, formed habits of thrift and learned lessons in economy that will help him greatly to succeed, where the man whose capital "came easy" would fail.

There are many more reasons for saving than the mere amount of money to be accumulated. Have you started saving yet?
